Ørsted

Experience the impact

Our Internship Program is designed to strengthen your development through three key aspects.

Core business upskilling

This is the foundation of your journey where you'll be provided with challenging work that will build your knowledge in your chosen business area. You'll gain exposure to the core of our work through lunch & learns, town halls, and workshops, tailored to helping you launch your renewable energy career.

Vision-centered and collaborative hands-on learning

Our journey in building and shaping an American clean energy industry is one that

affects communities and therefore should go hand in hand with building more equitable systems for everyone. Together with your fellow interns, you'll work alongside business teams and contribute to achieving results while enriching your education.

Invaluable social capital

You'll have a dedicated career mentor, who'll help you navigate your transition to our work environment. Throughout the internship, you'll receive feedback on your performance and participate in tailored peer networking events.

How to apply?

Applications for our summer internship positions will be posted in the fall or winter of the prior year. Please refer to the individual job postings on our careers site for specific deadlines.

What you'll need to apply

- No more than 36 months' work experience in your chosen field.
- Fluency in written and spoken English.
- The ability to work full-time without sponsorship now and in the foreseeable future.

What we're looking for in a candidate

- The ability to take initiative and self-direct.
- A global, collaborative mindset.
- Curiosity and out-of-the-box problem-solving.
- A desire for continuous learning.
- Authenticity.
- A passion for the work you do.

We're dedicated
to being a great
place to work!

At Ørsted, we believe in a workplace that not only encourages high performance, but also provides the flexibility for our employees to nurture their well-being – both at home and in the office. As an intern working at

Ørsted, you'll experience:

- Fair and equal pay.
- A purpose-driven culture.
- Excellent growth opportunities.
- A global community of employee networks.

Join a global clean energy leader

Our renewable energy solutions are driving growth in America's clean energy sector.

Taking our global experience ...

Ørsted was the first energy company to transition from fossil fuels to clean energy. Today, we operate more offshore wind farms than any other company in the world. And we're committed to being the first energy company to achieve net-zero carbon emissions.

... and combining it with our local expertise

We're now bringing that experience to the benefit of communities throughout the U.S., strengthening the American economy and building greater energy security.

15 offices

From Texas to New York, 700+ employees work at dedicated Ørsted offices.

~6 GW

Clean energy from our wind, solar, and battery storage projects, both in operation and under construction.
