Hi Caoimhe,

I can confirm that these scales are acceptable.

Kindest Regards,

Lauren

Good Morning,

MWP are currently preparing drawings for a planning application for a wind farm (ABP- 315655-23)

In relation to the Site location maps we are proposing a scale of 1:50,000 with more detailed site location plans at 1:5,000.

For the site layout plans we are proposing a scale of 1:1000 as this would reduce the amount of drawings required and it is what we have submitted in previous wind farm applications.

For more detailed elements such as site entrances etc. the scale will be 1:500.

Could you please confirm if the above scales are acceptable for a wind farm development please?

Thank you,

Caoimhe O'Connor
