

Monthly onshore construction status report

November 2023

Upcoming activities

Lanoka

- Activity west of Route 9 will include redistribution of the stockpiled soil; stabilization of the site(s) through seeding and straw distribution; ongoing maintenance of erosion and sediment control measures.
- Along the cable route (east Route 9) there will be managing the felled trees through grinding, mulching and/or stacking to create natural habitats for animals.
- Fences, trailers, and parts in the parking lot of Island Beach Park will be removed.

Atlantic City

- Continuing progress on the O&M facility.
